I, Dr. W.A.N.K. Wijelath work as a medical officer at District General Hospital, Negombo.

It is a great pleasure to inform you that I have installed 6 kW solar Energy System to my residence which cost about Rs.20000.00 as monthly electric bill.

On my request, your technical team visited my residence and explained me the suitable package according to my usage. (I appreciate your personal visit to my residence and explained me the feasibility of solar system)

Within One week after finalizing the project, your team installed the solar system and my family members are highly impressed about their discipline, efficiency and outstanding customer care which are very important while working in a domestic environment.

Please convey my appreciation to your team specially Mr. Pradeep Rodrigo (Administrative officer), Mr. Janaka Athukorala (Manager Special Projects) for their wonderful performance.

The solar system is now performing well and in 7 days it has exported 70 kW to national grid.

I wish you and your team all the success in your future projects and I strongly believe that you will be a main contributor to ecofriendly Sri Lanka which is a dream of everybody.

I am Premalal Existing customer of your Company. During the period of last two years we were not at home we were stuck at U.A.E due to Corona Pandemic situation. We came to Sri Lanka on Last month and we came to know our hot water system not working properly. So I made a job request on your company.

As a result your Field service Staff visited to my place and solved the problem within 24 hours of period. Thank you very much for your excellent after sale service also I wish your company for bright future.

Thanking You
